Note:

- ICs would be responsible for the day-to-day operational details and functioning of the ministry. By and large, they are the persons accountable for all aspects of the ministry. They would provide updates to the advisors as necessary.
- Advisors play a coordinating and advisory role to ensure that the ministry's functioning and growth is aligned with the church's constitution and overall direction and goals. They also help resolve issues beyond the ICs' scope/capacity. If they are unable to resolve it, they would raise the issue to the Session.
